

روسای محترم اتاق‌های بازرگانی، صنایع، معادن و کشاورزی سراسر کشور

با سلام،

احتراماً به استحضار می‌رساند همزمان با بیست‌وهفتمین نمایشگاه بین‌المللی نفت، گاز، پالایش و پتروشیمی مورخ ۲۷ لغایت ۳۰ اردیبهشت‌ماه ۱۴۰۲، مقرر است یک هیات تجاری از فدراسیون روسیه متشکل از ۲۸ شرکت که در زمینه‌های مرتبط با این نمایشگاه فعالیت دارند، برای دیدار و مذاکره با تجار و فعالان اقتصادی ایرانی به کشورمان سفر نمایند. به‌همین منظور اتاق بازرگانی تهران در نظر دارد تا با همکاری فدراسیون صنعت نفت ایران نسبت به همتیابی برای این اعضای هیات تجاری اقدام نماید.

ضمن ارسال فهرست این گروه تجاری به پیوست، خواهشمند است دستور فرمایند مراتب را به نحو مقتضی به اطلاع اعضای محترم آن اتاق بازرگانی رسانیده و علاقمندان برای حضور در دیدارهای دوجانبه در خلال برگزاری رویداد در محل پابویون فدراسیون روسیه در نمایشگاه مذکور، حداکثر تا تاریخ ۱۸ اردیبهشت ۱۴۰۲ از طریق مراجعه به بخش هیات‌های تجاری وبسایت این اتاق بازرگانی به آدرس <https://tccim.ir/events> ثبت‌نام نمایند.

حسام‌الدین عباس حلاج

معاون امور بین‌الملل

COMPANY NAME		INDUSTRY	BRIEF PROFILE	WEBSITE
1	Alfa Horizon	Drilling equipment Well completion equipment	The company develops and manufactures full range of well completion equipment in the oil and gas industry using modern and technological approaches.	https://alfahorizont.ru/
2	HMS GROUP	Pumping, compressor and block-modular process equipment	One of the leading Russian and CIS manufacturers of pumping, compressor and block-modular process equipment for oil and gas complex, power, water supply and drainage, metallurgy and other industries	https://grouphms.ru/en/
3	ZST FIBERGLSS PIPES	Fiberglass pipes	The leading and oldest independent manufacturer of high pressure fiberglass pipes for the oil and gas industry in Russia and the CIS	https://zst.ru/en/
4	INTRA	Development of the infrastructure	Manufacturing and engineering company, whose activities are aimed at the creation, support and development of the infrastructure of fuel and energy companies	http://first-site.sc-intra.ru/eng/
5	INTRON PLUS	Non-destructive testing equipment	Global leader in the field of developing and manufacturing of non-destructive testing (NDT) equipment for steel wire ropes, steel-cord conveyor belts, and storage tanks	https://www.intron.ru/en/
6	INVENTIVE PRODUCTION CENTER	Corrosion protection pipeline parts	Manufacturers of integrated corrosion protection pipeline parts	https://ipcbugulma.com/
7	BURSERVICE	Drilling equipment	Leading manufacturer of tools for drilling and workover of oil and gas wells	http://burservice.com/
8	KOZ LOADING SOLUTIONS	Equipment for loading/unloading of oil-products	Russian manufacturer having more than 38 years of experience in design, production and supply of equipment for loading/unloading of oil-products and all kind of technical fluids, from single units to complete solutions for any types of transportation	https://koz.ru/en/

COMPANY NAME		INDUSTRY	BRIEF PROFILE	WEBSITE
9	RIZUR	Explosion-proof equipment	Manufacturing enterprise that produces high-technology explosion-proof equipment: electric-heating systems, reinforced fiber-glass enclosures, soft enclosures for EC&I/SCADA/shut-off and control valves, as well as level control equipment, which is ready-to-operate even in most severe climatic conditions in oil and gas industry facilities in both Russia and abroad.	https://en.rizur.ru/
10	IRS LG AUTOMATION (KIKEKS LLC)	Piping valves	The company creates shut-off and control piping valves for the petrochemical, oil refining, energy and other industries	http://www.klapan.ru/
11	KUPER	Pumps	Pump and pumping stations	https://kupercompany.com/
12	RPC Meta-chrom	Laboratory equipment	The firm is a developer of analytical gas chromatographs, laboratory reactor units, test and measurement equipment on behalf of various industries.	https://en.meta-chrom.ru/
13	Nauka-Power Technology	Off-grid power units	Producers of the off-grid power unit EVOGRESS - an all-weather and anti-vandal power plant with the capability of supplying heat and power to facilities with constant electric power consumption in the range of 1 to 10kW.	https://evogress.com/en
14	New Technologies	Oilfield equipment	Organization is engaged in the production and supply oilfield equipment. It is specialized in the following main products: automated group metering unit, mobile automated group metering unit, low gabarit execution automated group metering unit	http://eng.tech-new.ru/
15	OGNEZA	Fire-retardant materials	Company is a leader in the fire-retardant material industry, providing comprehensive approach in the sphere of passive fire safety. It's main area of activity is the production of fire-retardant materials, compositions and equipment.	https://ogneza.com/

COMPANY NAME		INDUSTRY	BRIEF PROFILE	WEBSITE
16	ODUVANCHIK	Fuel additives and petrochemicals	The company's core business is production and wholesale of fuel additives and petrochemicals	https://oduvanchik-him.ru/
17	PAKER	Borehole equipment	Production and service of downhole equipment for well completion, well development, oil and gas production, well workover, hydraulic fracturing, acid treatment, repair-isolation and cementing operations in the well	https://ae.npf-paker.com/
18	Petroline-A	Drilling and workover of oil and gas wells	The company is a leader in the field of development, production and service of instrumentation for drilling and workover of oil and gas wells. The company produces controllers, consoles and indicators for the driller's console, load sensors, rotary table torque sensors, pressure sensors, gas analyzers, level gauges, alarms, etc.	https://www.pla.ru/eng/
19	Pozhgazpribor	Gas analyzer and fire detection systems	Company is a Russian developer and manufacturer of gas analyzer and fire detection systems.	https://pozhgazpribor.ru/
20	SENSOR	Equipment for explosive environments	Enterprise has been specializing in the development and manufacture of instruments, equipment, measuring instruments and control systems for explosive environments for the oil and gas, chemical and other industries, and occupies one of the leading positions in the market of measuring systems for the amount of petroleum products and liquefied hydrocarbon gases, shut-off pipeline valves with remote control.	www.nppsensord.ru/en
21	SynteZ NDT	Industrial X-ray generators	The company develops, manufactures, supplies and exports industrial X-ray generators for non-destructive testing of welded joints of pipelines, mounting structures, forgings made of ferrous and non-ferrous metals.	https://en.synteZndt.ru/

COMPANY NAME		INDUSTRY	BRIEF PROFILE	WEBSITE
22	STS-GeoService	Cumulative perforators, explosive packers, pipe cutters	The company is engaged in the production of cumulative perforators, explosive packers, pipe cutters.	https://sts-geo.com/
23	TENSOGRAPH	Sealing materials	The company has a complete production cycle of sealing materials, from processing natural graphite and producing graphite foil Tensograph® to automated production of a wide range of end products.	https://unichimtek.com/#
24	Topaz-servis	dispensers, equipment and software for gas stations	The company produces fuel dispensers, equipment for gas stations, produces software for this equipment. It has several service centers in different regions of the country	http://www.topazelectro.ru/
25	Uralmash Oil and Gas Equipment Holding	Drilling and oil and gas equipment	The company has more than 75 years of experience in manufacturing of drilling and oil and gas equipment, the company is the biggest Russian manufacturer of drilling rigs for development and deep exploration drilling.	http://www.uralmashngo.com/eng/about-company/
26	Chemservice	Equipment for cathodic protection	Russian manufacturing factory that specializes on developing and producing the equipment for cathodic protection (CP) against corrosion of underground pipelines	https://ch-s.ru/
27	NPO Ecosystema	Water treatment equipment	The largest Russian manufacturer of water treatment equipment and wastewater treatment complexes for all sectors of industry.	https://en.eco-systema.com/
28	TECHNOCENTER LLC	Purchase, export and processing of waste oil	Provides comprehensive services for the purchase, collection and export, processing and disposal of used oils and petroleum products with expired shelf life. The company's activities are licensed, there is an admission to the disposal of waste of hazard classes I-IV.	https://ooo-tehnocentr.ru/
